

# **Massachusetts Community Health & Healthy Aging Funds**

## **Capacity Building Webinar #1**

September 4, 2019

# Introductions

---

**Nineequa Blanding**  
Vice President, Grantmaking  
Director, Community Health &  
Healthy Aging Funds

**Kevin Myers**  
Program Officer,  
Community Health  
Fund

**Abby Atkins**  
Managing Director,  
Community Health  
Assessment  
Evaluation Lead, Community  
Health & Healthy Aging  
Funds

**Jennifer Lee**  
Managing Director, Grantmaking  
Program Officer, Healthy Aging  
Funds

# Webinar Objectives

---

- Understand the focus and intent of the Funds and their importance in advancing population health
- Identify need through engaging community and data
- Formulate and implement ideas that advance health and racial equity

# Agenda

---

Topic	Time
Background	15 minutes
From Idea Formation to Evaluation	10 minutes
Engaging Community and Identifying Need	20 minutes
Using Data to Define Your Idea	15 minutes
What's the Big Idea?	20 minutes
Resources	10 minutes

# Housekeeping

---

- If you have any **questions** related to this webinar, please type them into the chat box. Answers to questions raised will be available on the Frequently Asked Questions webpage.
- The webinar recording, slides, and transcript will also be available.
- To make this webinar accessible we will communicate all details on the slides.

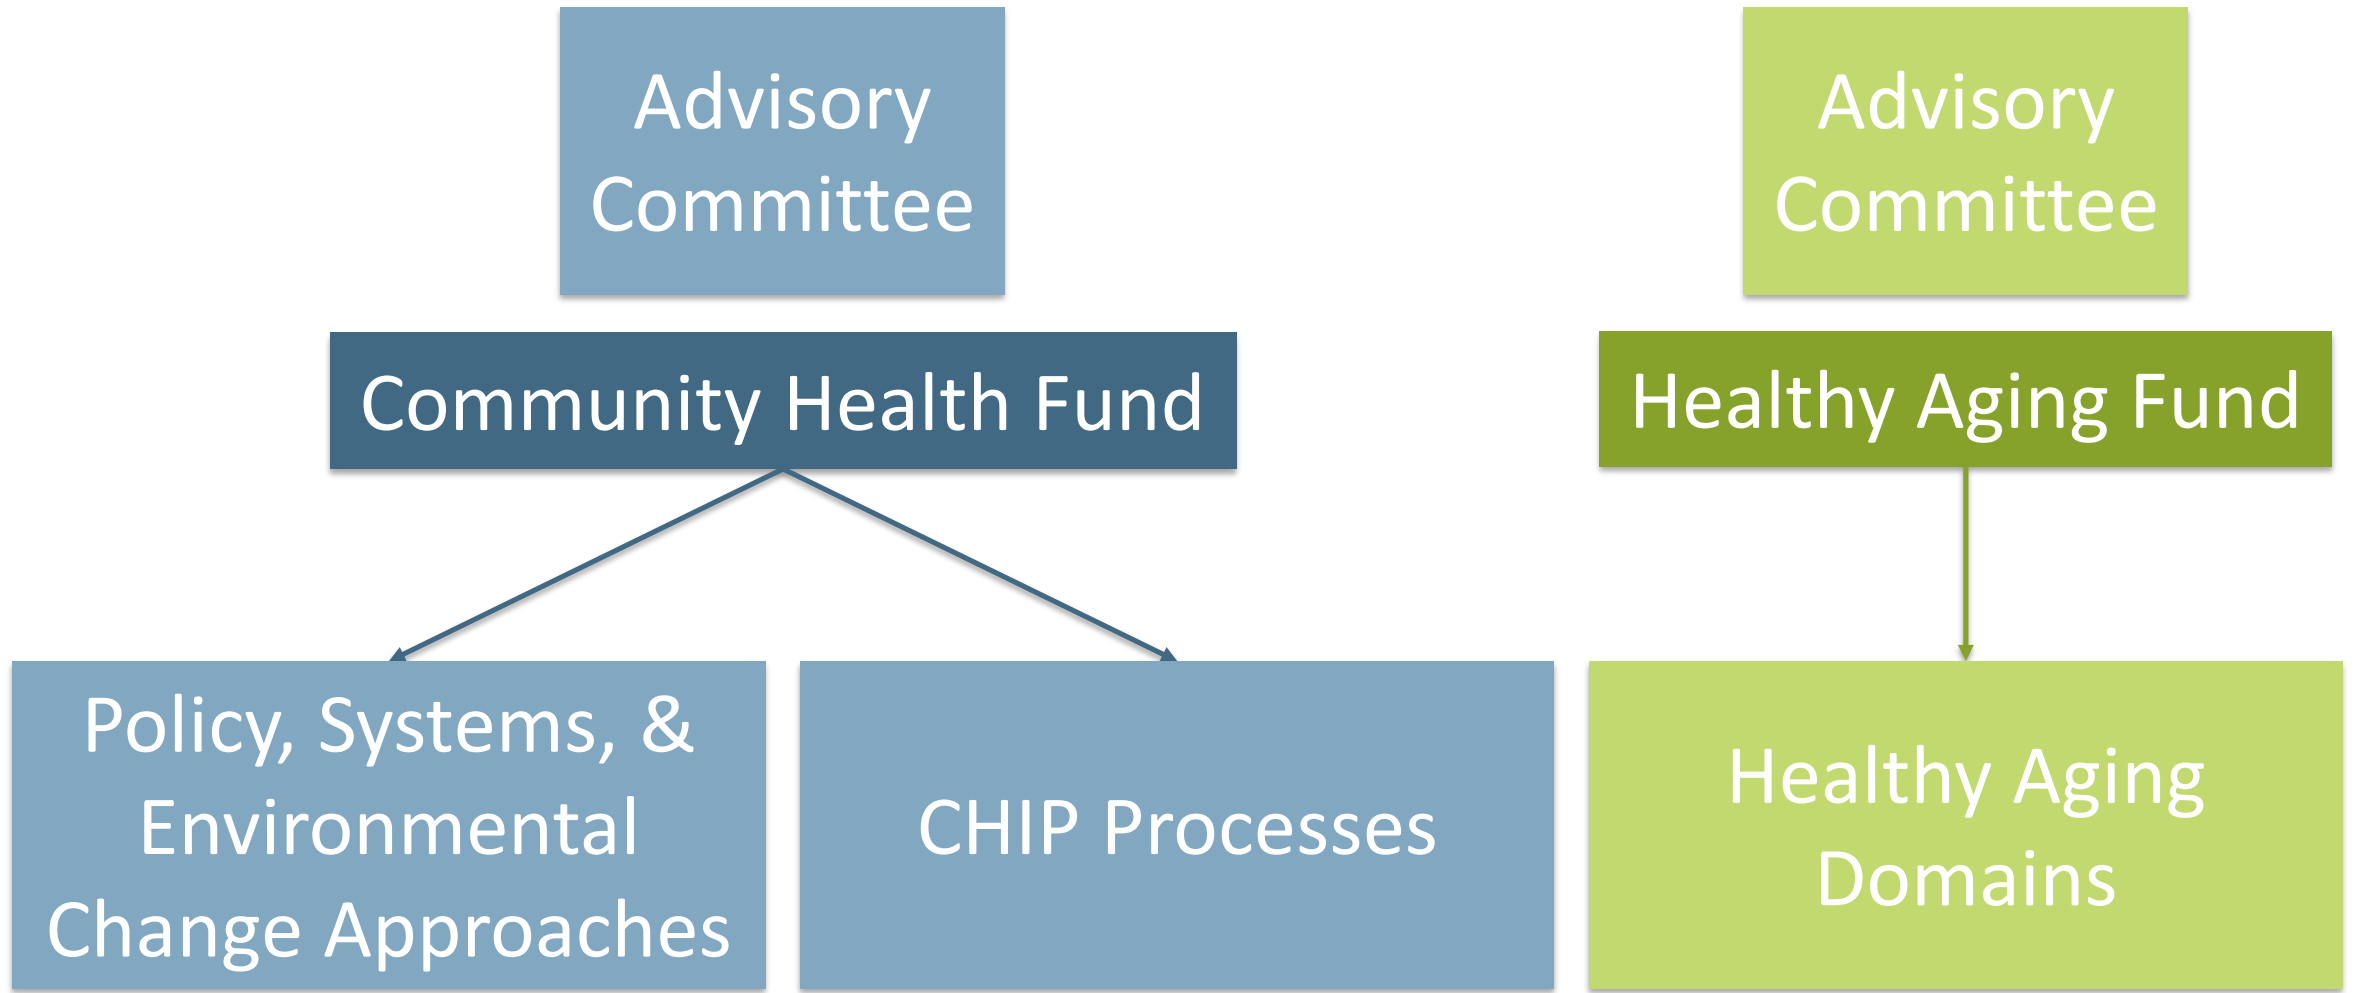

# Background

---

# Two Funds and Three Funding Opportunities

---

# The Funds' Visions

---

**Community Health Fund Vision:** Massachusetts communities are transformed so all residents have an equitable opportunity to have the highest quality of life possible.

**Healthy Aging Fund Vision:** The Healthy Aging Fund resources will contribute to equitable systems across sectors affecting community-level physical environments and social and economic conditions, ultimately leading to a better quality of life and health outcomes for older adults as they age in Massachusetts.

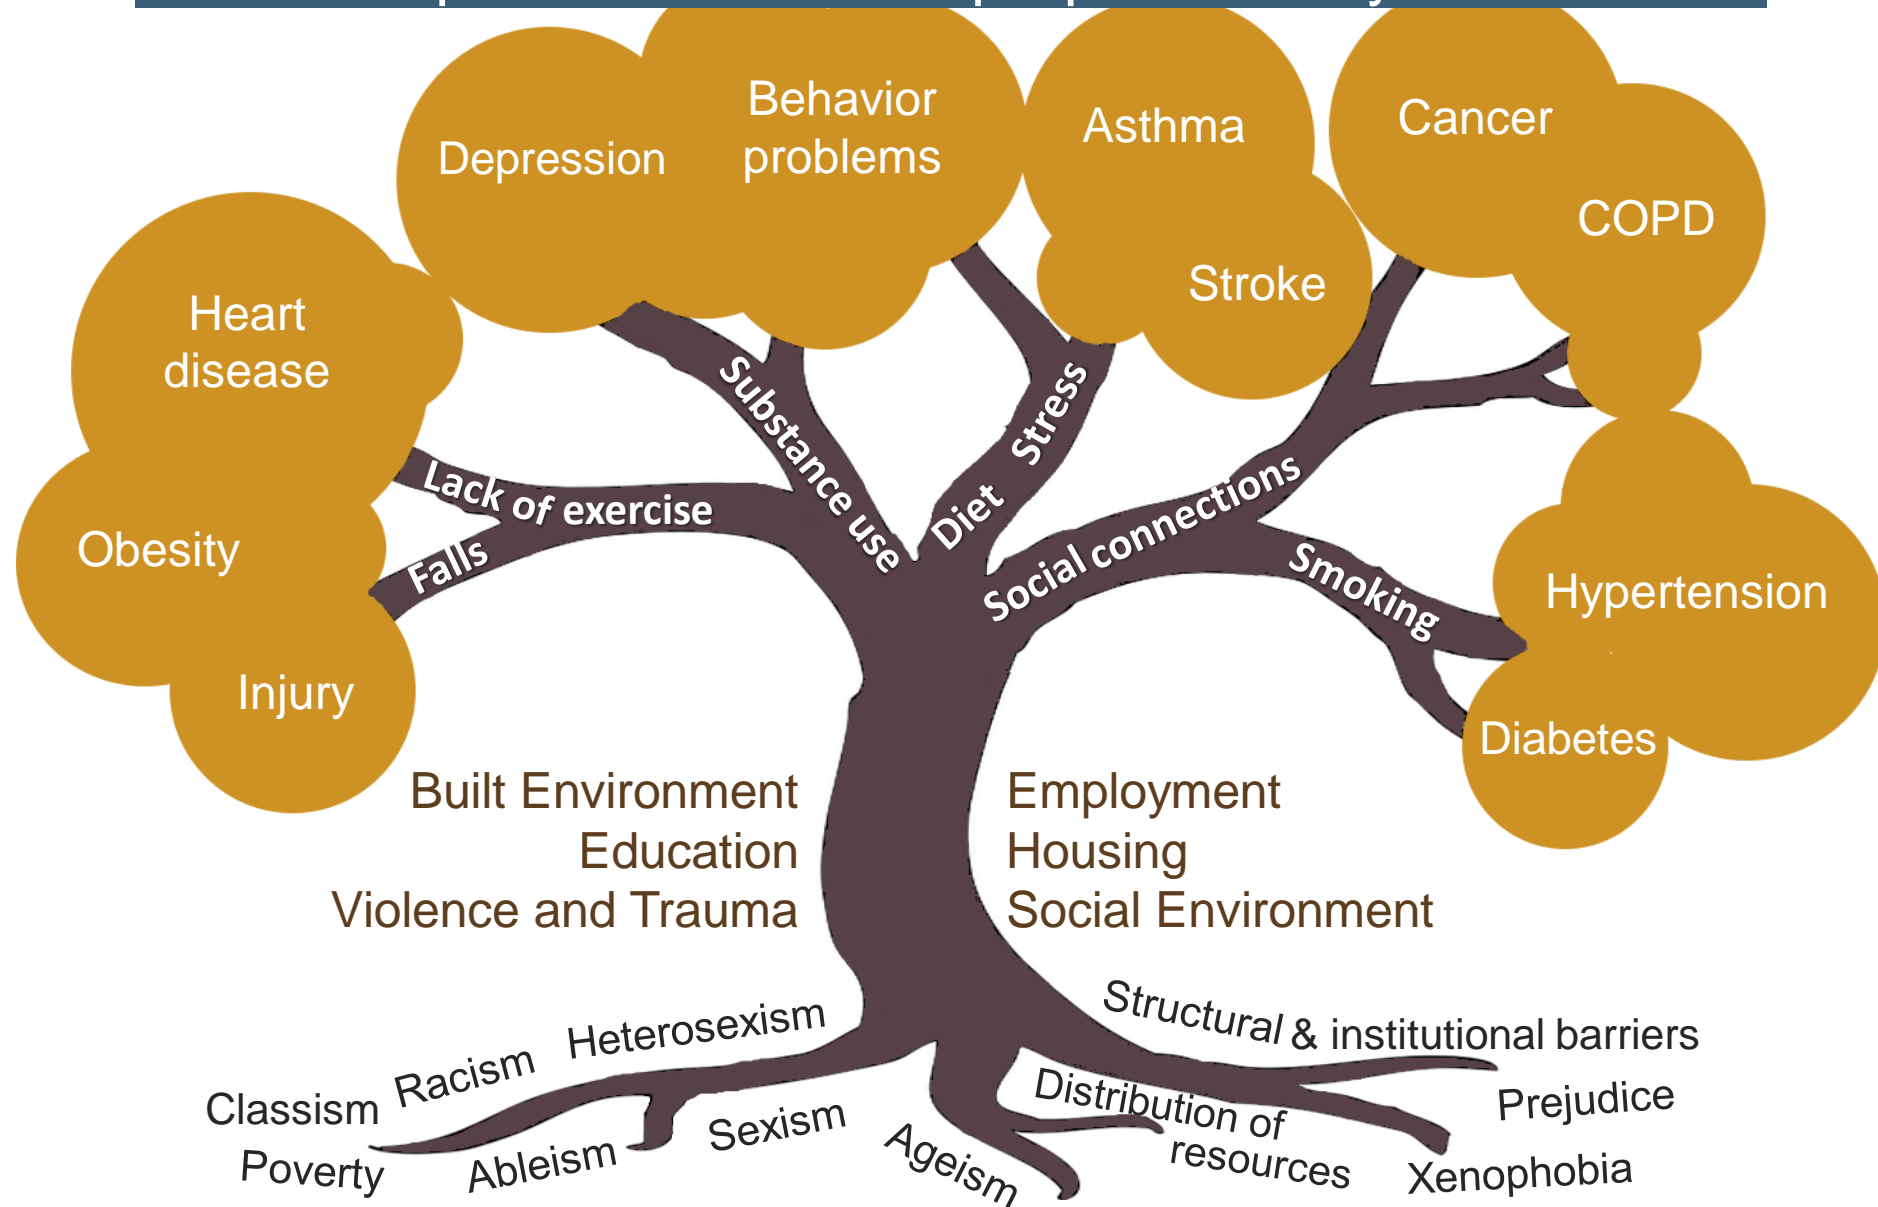

# Upcoming Deadlines

---

<b>Healthy Aging Inquiry of Ideas (IOI)</b>	<b>Policy, Systems, Environmental Change Approach Inquiry of Ideas (IOI)</b>	<b>Community Health Improvement Planning (CHIP) Proposal</b>
2:00pm, Wednesday September 18, 2019	2:00pm, Wednesday, October 2, 2019	2:00pm, Wednesday, November 20, 2019

Health outcomes... influenced by health behaviors...  
shaped by the social determinants of health...  
health inequities created and perpetuated by root causes.

# Defining Health Equity

---

**Health Equity** - everyone has a fair and just opportunity to be as healthy as possible. To achieve this, we must remove obstacles to health — such as poverty, discrimination, and deep power imbalances — and their consequences, including lack of access to good jobs with fair pay, quality education and housing, safe environments, and health care.\*

“Of all the forms of inequality, injustice in health is the most shocking and the most inhuman because it often results in physical death.”

\*Source: Human Impact Partners, Health Equity Guide  
<https://healthequityguide.org/about/defining-health-equity/>

**Martin Luther King Jr.**

# From Idea Formation to Evaluation

---

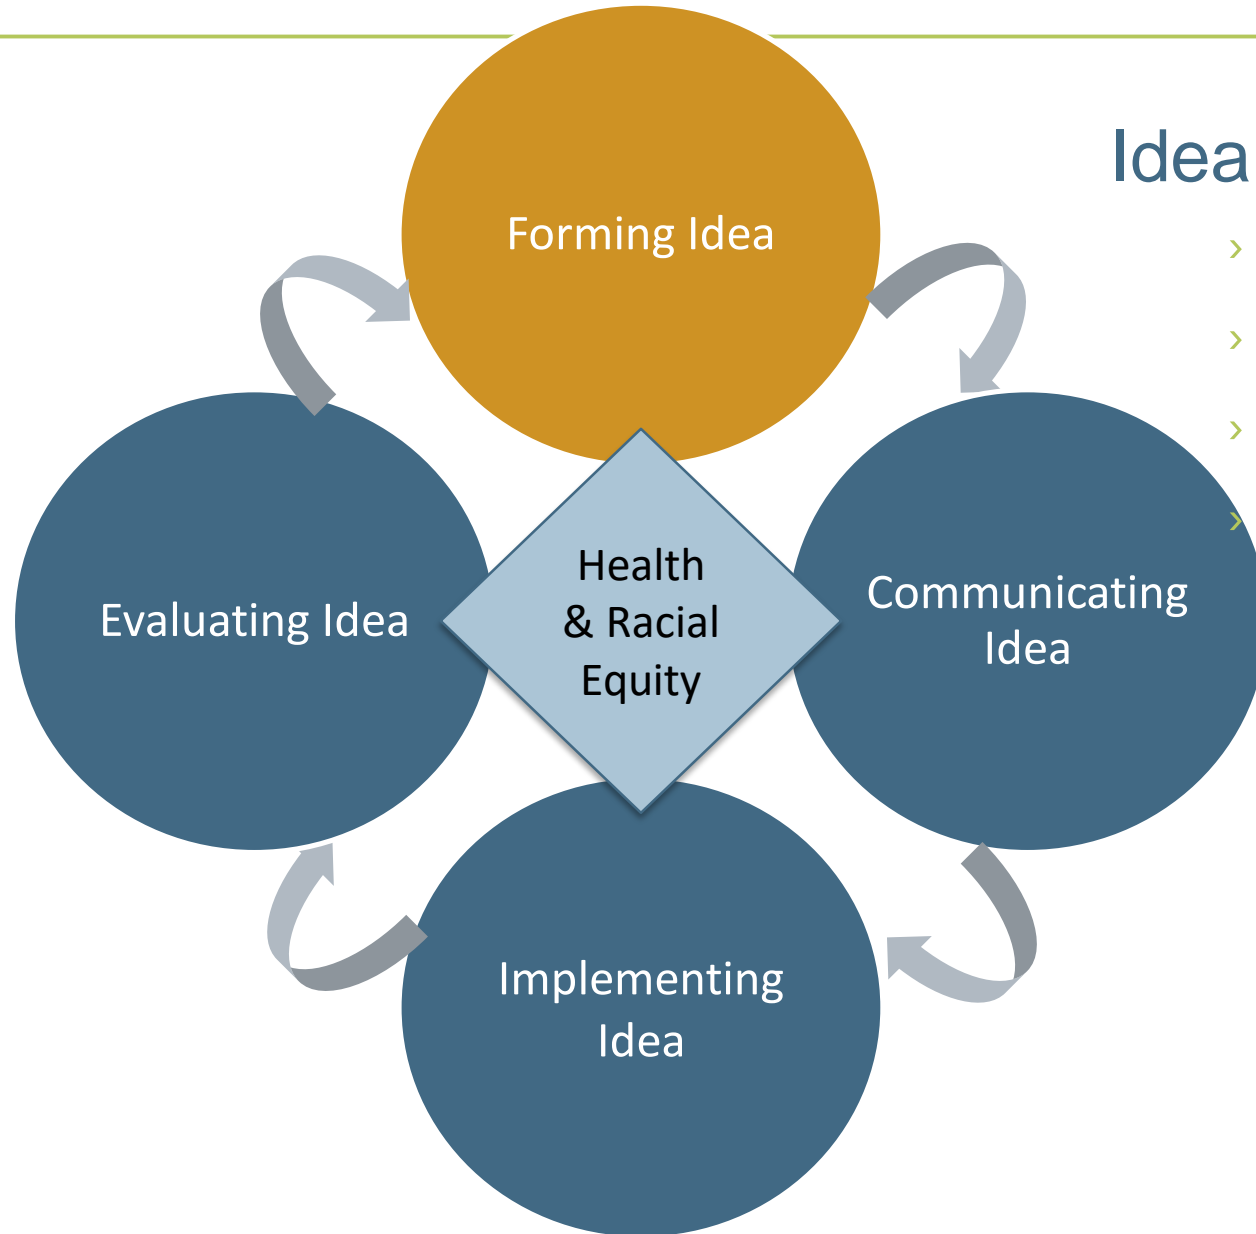

# From Idea Formation to Evaluation

---

# From Idea Formation to Evaluation

---

## Idea Formation

- > **Engaging Community**
- > **Identifying Need and Data**
- > **What's Your Big Idea?**
- > **Engaging Other Partners**

# Idea Formation Guiding Questions

---

**Who** you will serve?

- What is the population with the greatest disparities? Where do those disparities come from?
- What is the need? What are the health and racial inequities?
- What data describes or defines the need?

**What** you will do?

- What is your big idea? How will you address the population's need?
- Why are you the best organization to lead this (as compared to others)?
- How does what you plan to do directly connect to the goals of the Funds?

**How** you will do it?

- What partners will you engage to achieve your goals? Who else do you need?
- How will you engage members of the community affected by these issues?

# Addressing Inequities Guiding Questions

---

When considering a particular idea to address an inequity, we continuously ask four questions, especially considering people experiencing inequities:

**Who  
benefits?**

**Who is  
harmed?**

**Who  
influences?**

**Who  
decides?**

# Engaging Community and Identifying Need

---

# We Want to Hear From You!

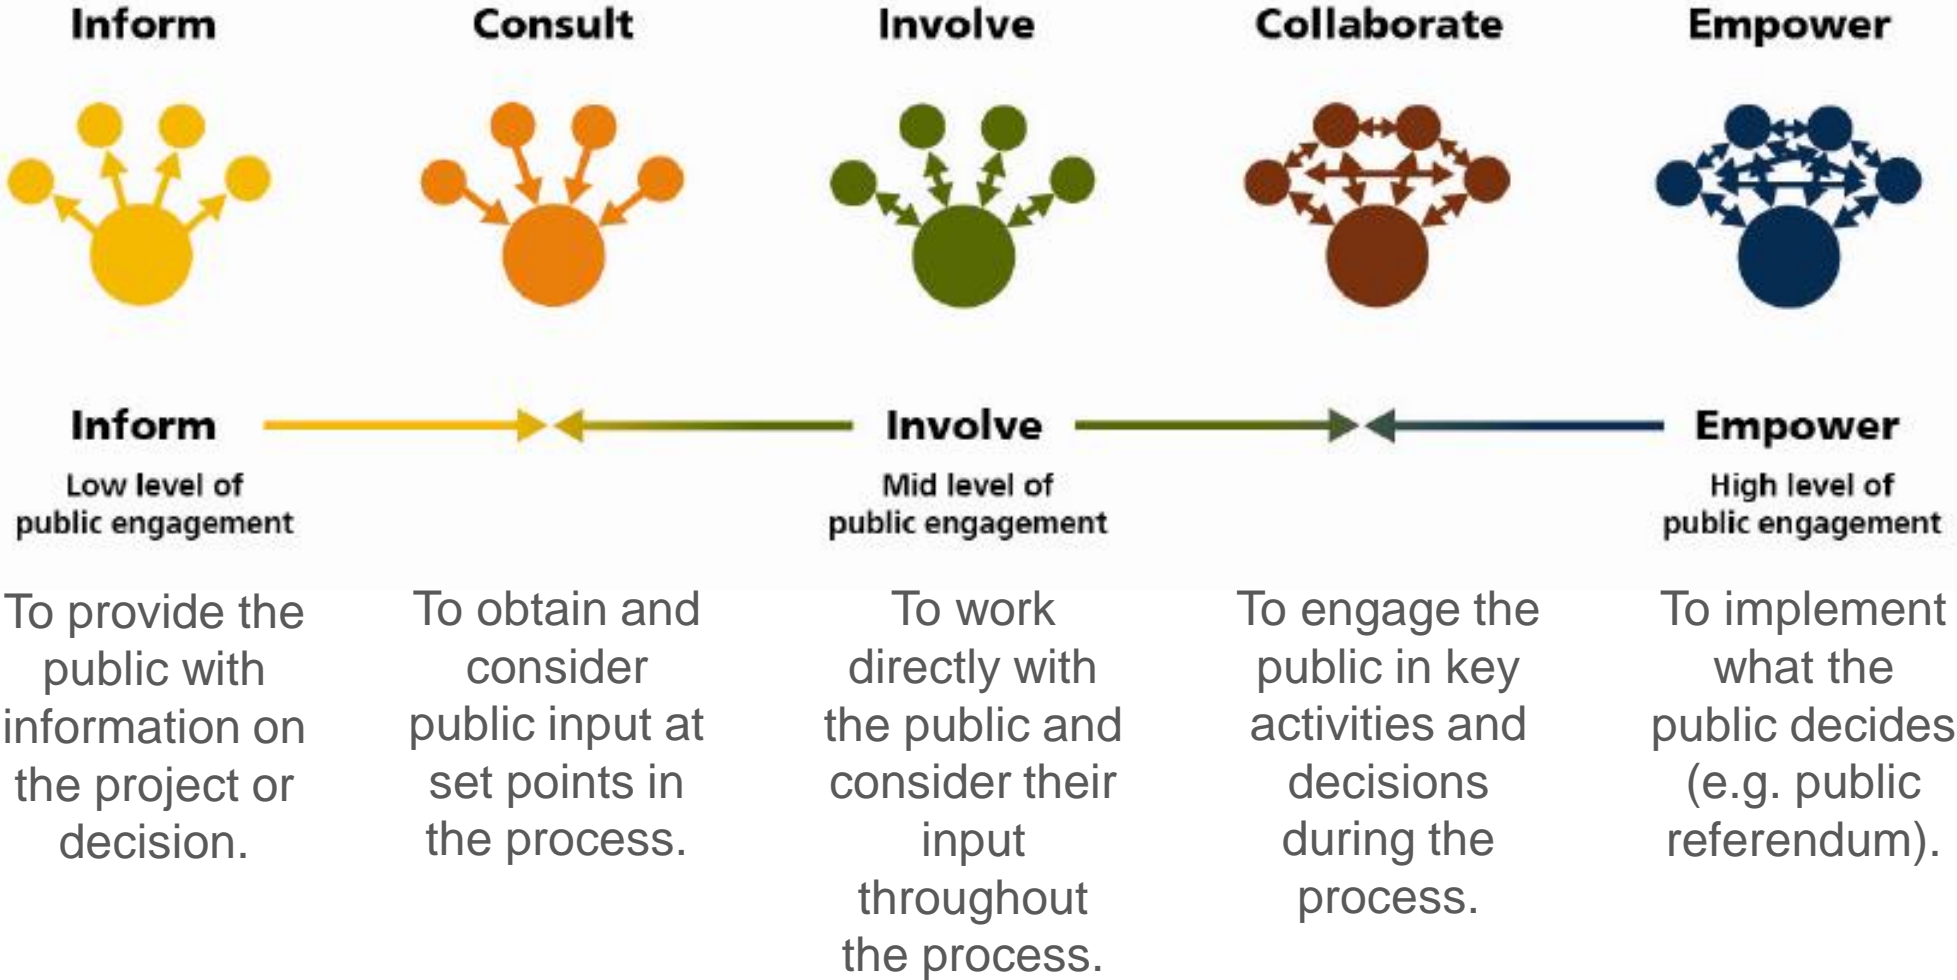

---

How do you define *Community*?

# Community Engagement Spectrum

# Key Considerations When Engaging Community

---

- Engage **community members with lived experience** to understand challenges they face
- Understand who are **decision makers and influencers** and how might they be leveraged
- Understand how might **other stakeholders** may offer support in addressing the identified need

# We Want to Hear From You!

---

What strategies are effective in engaging your communities?

Where does your organization generally operate in the community engagement spectrum?

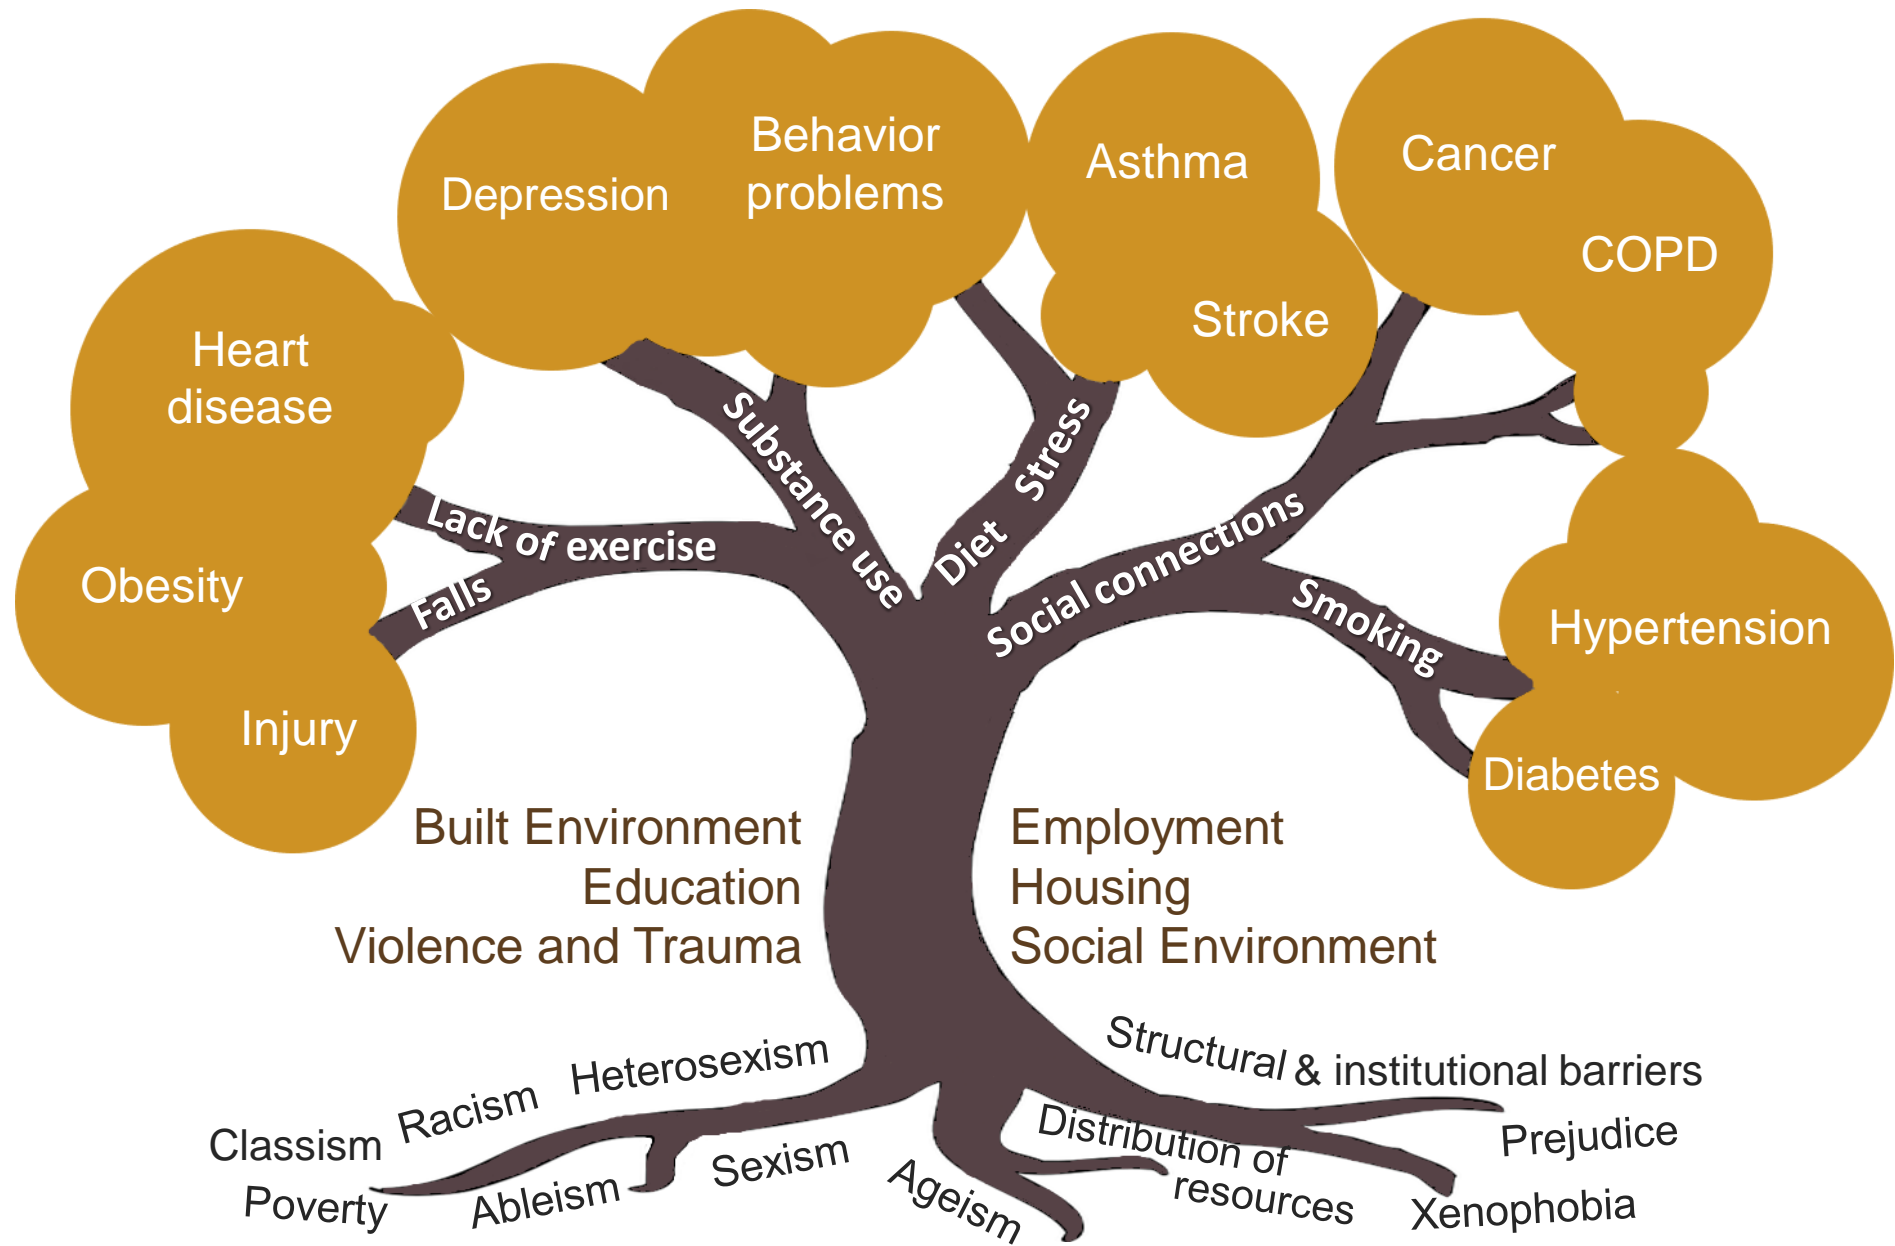

# Using Data to Define Your Idea

---

# Data for Your Idea

- **Health Outcome Data**

- **Health Behavior Data**

- **Social Determinants of Health Data**

- **Contextual Data**

# Sources of Health Data

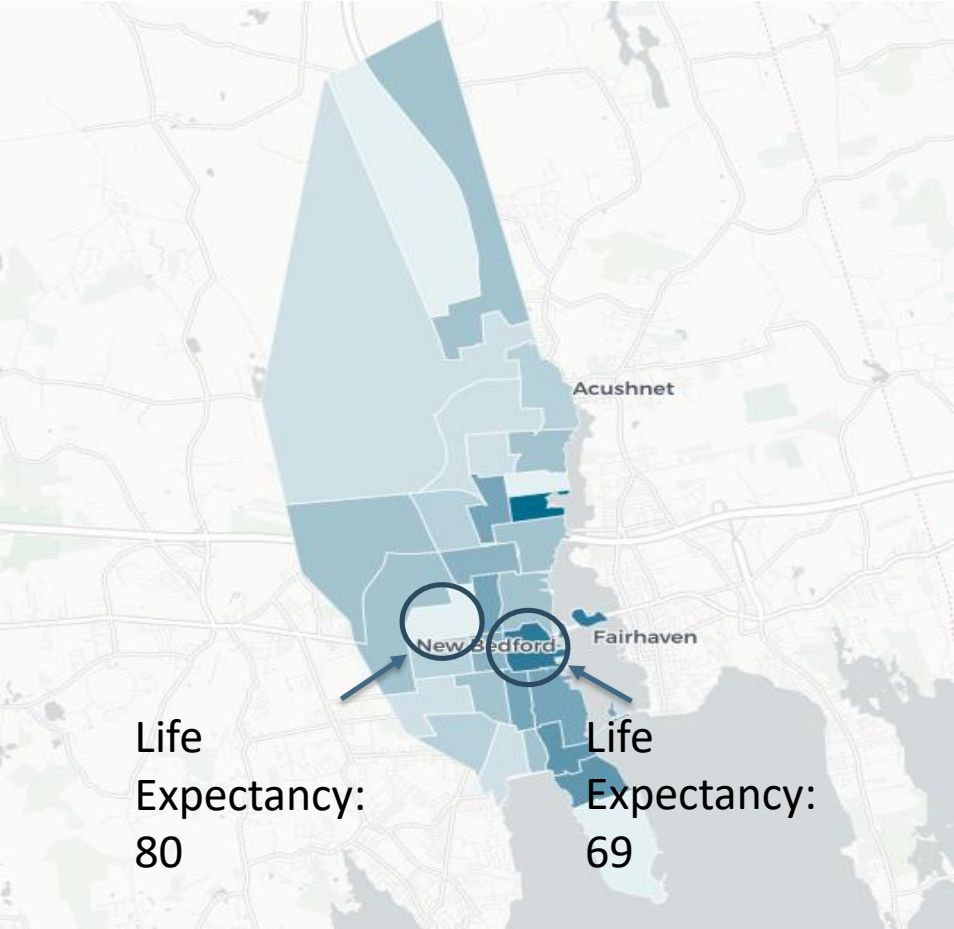

---

- **Health Surveys**
  - Behavioral Risk Factor Surveillance System (BRFSS), Youth Risk Behavior Survey (YRBS)
- **Disease and Injury Registries**
  - MA Cancer Registry, Weapon-related injury surveillance system, Vital Statistics
- **Clinical Data**
  - Claims data, Emergency Room data, Electronic Health Record (EHR) data
- **Census Data**

## Explore the Report

The **Massachusetts Healthy Aging Data Report** is designed to help residents, agencies, providers and governments understand the older adults who live in their cities and towns – their ages, living arrangements, health status, strengths and vulnerabilities. The report was first released in [January 2014](#) and updated in [March 2015](#) and most recently in [December 2018](#).

The 2018 report includes 379 [Community Profiles](#): 351 for each of the Commonwealth's 351 cities and towns plus neighborhoods in Boston, Springfield, and Worcester. Each Community Profile includes 179 indicators of individual and community health listed alongside state averages, allowing for a comparison of how a town is doing relative to the rest of the state by each variable.

The report was funded by [Tufts Health Plan Foundation](#) with research led by the Gerontology Institute of the [John W. McCormack Graduate School of Policy and Global Studies](#) at the University of Massachusetts Boston.

# We Want to Hear From You!

---

**What are other data sources that you're aware of, or that you've used before, that we haven't listed and that you'd suggest to your peers?**

# Data Limitations

---

- Population or number of respondents is small
- Limitations to specific data sets
- Data is generalized
- Data is outdated
- Data might be invalid or not reliable – important to check sources
- Additional Resources
  - [Using Data to Tell Your Story](#): Webinar recording by the Community Health Training Institute that describes how to tell a compelling story with health data.
  - Visit website ([www.mass.gov/MAHealthFunds](http://www.mass.gov/MAHealthFunds)) for resources
  - E-mail questions to [CHFUND@hria.org](mailto:CHFUND@hria.org) or [HealthyAgingFund@hria.org](mailto:HealthyAgingFund@hria.org)
  - Schedule phone call with a TA provider

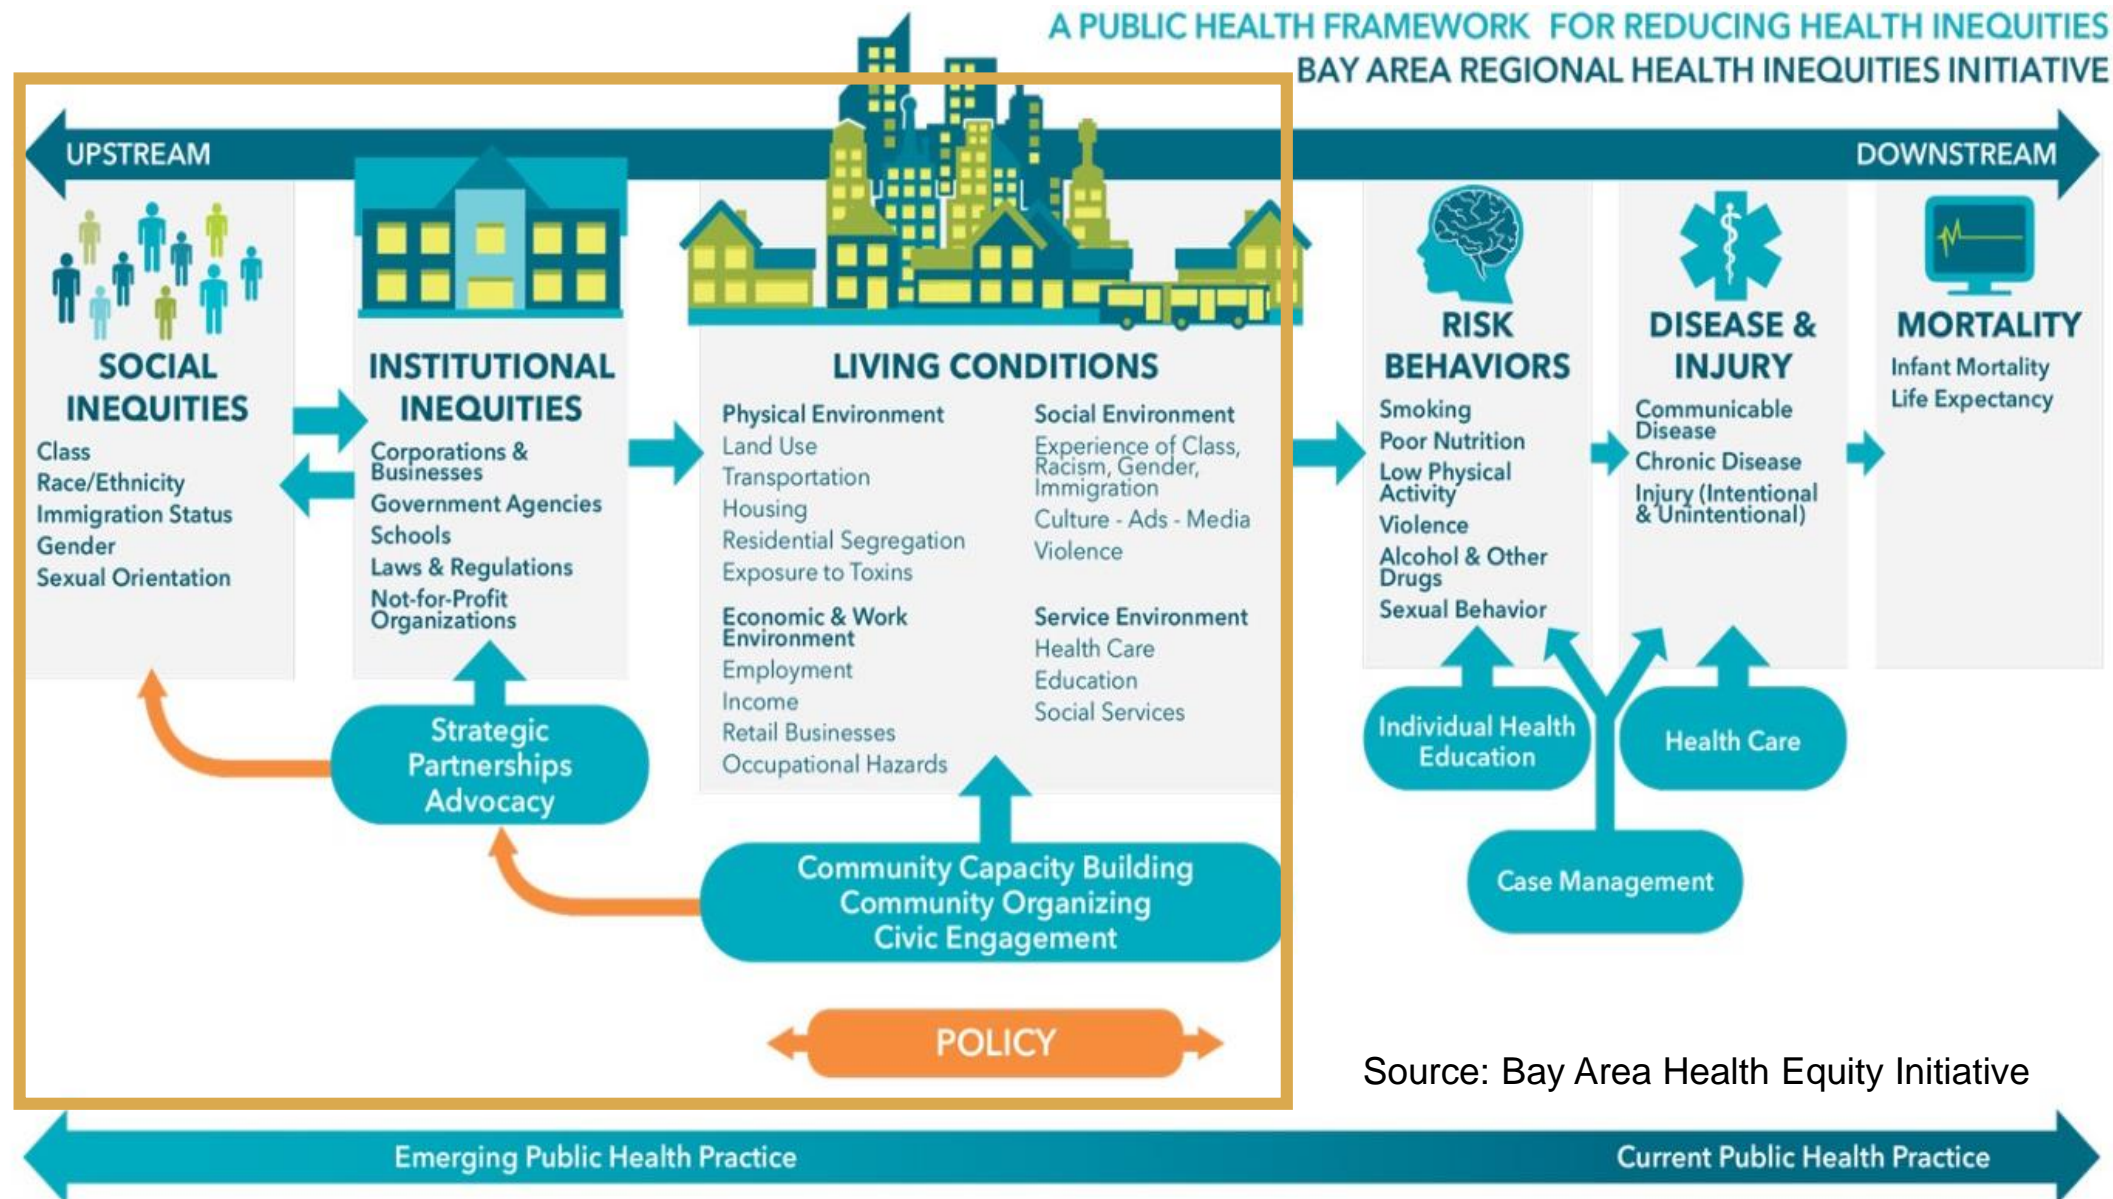

# What's Your Big Idea?

---

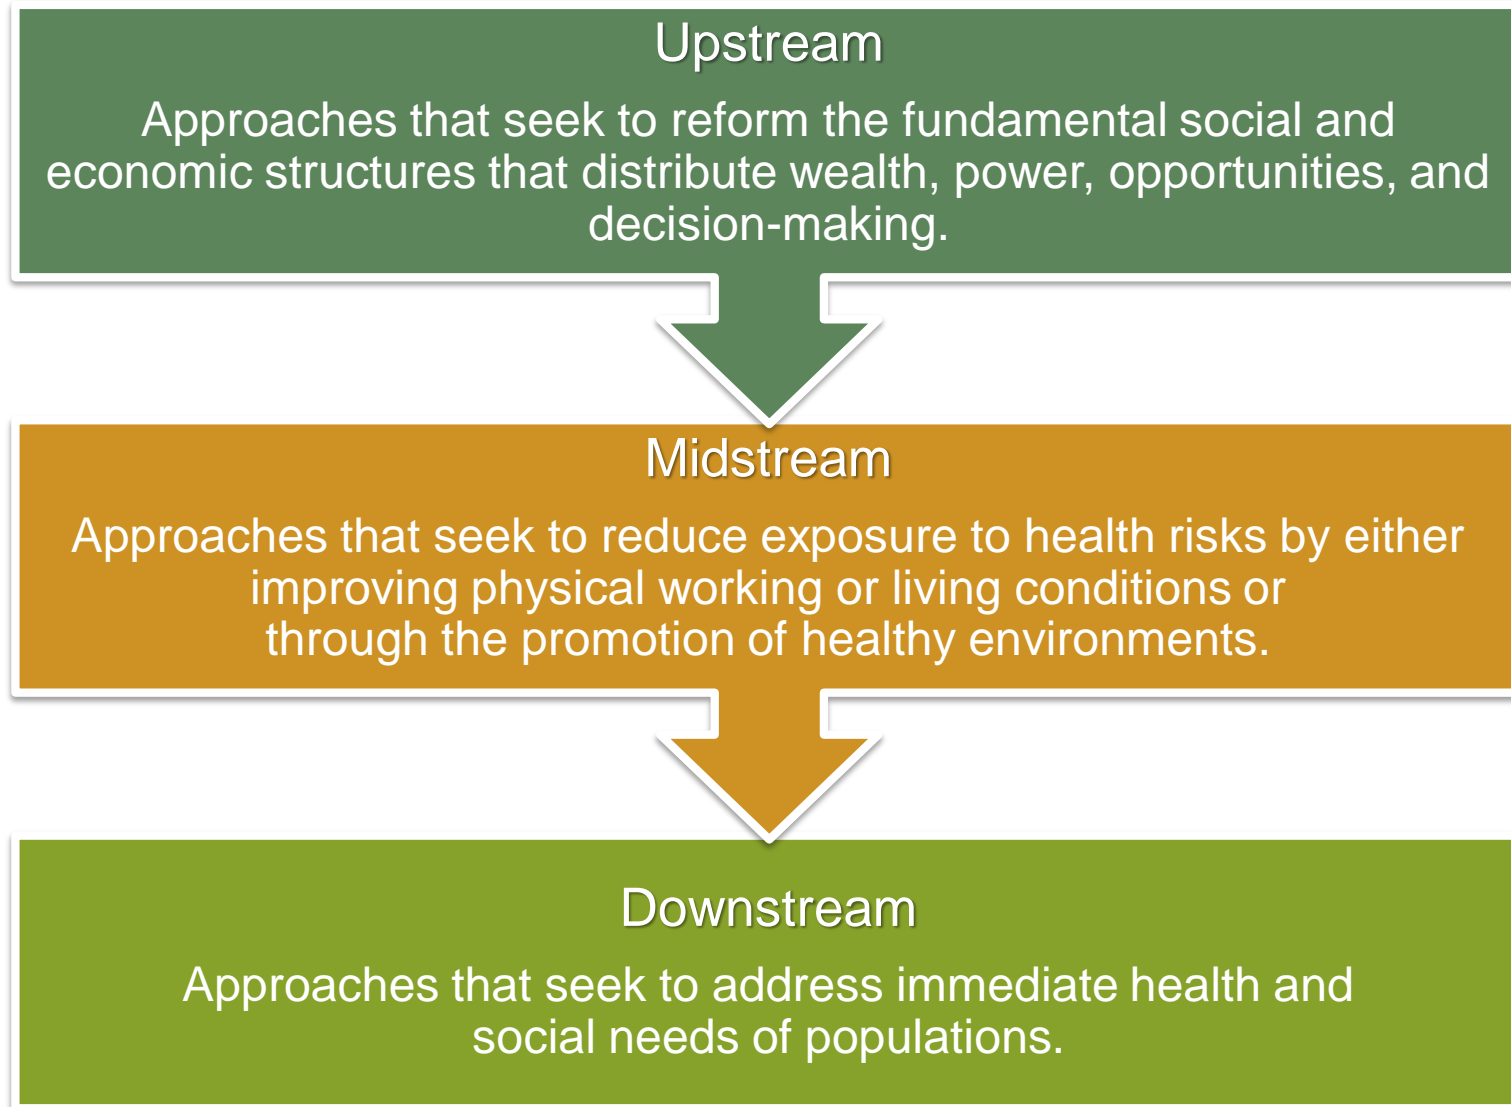

# Moving Upstream to Reduce Health Inequities

Source: Bay Area Health Equity Initiative

# Health Equity Takes Us Upstream

---

# We Want to Hear From You!

---

Consider the upstream, midstream, and downstream approaches from the previous slide:

- 1) Where does your organization typically operate?
- 2) What would it look like for your organization to move that work upstream?

# Working Upstream

---

## Policy

**Policy improvements may include:**  
a law, regulation, procedure, administrative action, incentive, or voluntary practice of governments and other institutions.

## Systems

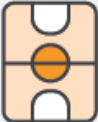

**Systems improvements may include:**  
change that impacts all elements, including social norms of an organization, institution, or system.

## Environmental

**Environmental improvements may include:**  
change of the physical, social, or economic environment.

# Policy, Systems, & Environmental (PSE) Change Approaches

A Programs Approach	VS.	A PSE Change Approach
 Hosting a community bike ride		 Implementing a Complete Streets policy to ensure community roads are designed to be safe and accessible for all users
 Having an "open gym night" at a local school		 Implementing a town-wide Joint Use Agreement enabling community members to have access to the school's gym and fields when school is not in session
 Working with a corner store to become a designated Healthy Market		 Creating a city-wide healthy retail program that supports food retailers to offer a variety of products and fresh, affordable healthy foods
 Opening and maintaining a community garden		 Passing a municipal urban agriculture ordinance or policy which allows residents to use space for community gardens

# The Four Questions

---

When considering a particular idea to address an inequity, we continuously ask four questions, especially considering people experiencing inequities:

**Who  
benefits?**

**Who is  
harmed?**

**Who  
influences?**

**Who  
decides?**

# Policy, Systems, & Environmental (PSE) Resources

---

[Preparing Your Community for Policy Change](#): Webinar recording by the Community Health Training Institute that describes how to engage stakeholders to promote PSE change, leverage local data and community voice, and present at a town hall or board meeting.

[Engaging Local Officials in Your Work](#): Webinar recording by the Community Health Training Institute that outlines policy, systems, and environmental change approaches and how to engage local officials.

[The Groundwater Approach](#): A document from the Racial Equity Institute highlighting a metaphor to help individuals understand that we live in a racially structured society, and that *that* is what causes racial inequity.
