COMMUNITY HEALTH AND
HEALTHY AGING FUNDS

Funding Announcement Webinars

Are you part of a Massachusetts multi-sector partnership, community-based organization, or municipality looking to advance health equity in Massachusetts communities?

Join staff from the Massachusetts Department of Public Health and Health Resources in Action to learn about the second round of the Massachusetts Community Health & Healthy Aging Funds.

About the Funds:

The Massachusetts Community Health and Healthy Aging Funds (the Funds) are both a grantmaking and capacity-building resource to assist organizations and communities in addressing the root causes of health inequities, specifically, institutional and structural racism. The Funds are investing in community-centered approaches that are intentional in addressing the root causes of inequitable health outcomes.

These funds provide capacity and funding in three areas:

- Policy, systems, and environmental change (PSE) approaches
- Community Healthy Improvement Plan (CHIP) processes
- Healthy aging (HA)

Through the webinars, you will:

- Receive information about who is eligible to apply and what may be considered for funding
- Understand how to submit an application
- Learn about the funds' history, rationale, investment process, and second funding cycle timeline
